Defects Identified:

BUG – 001

Title: Zero amount transfer accepted

Severity: Medium

Expected Result: The application should reject transfer requests when the transfer amount is zero.

Actual Result: The transfer was completed successfully and appeared in transaction history.

Status: Open

BUG – 002

Title: Negative amount transfer accepted

Severity: High

Expected Result: The application should reject negative transfer ammounts

Actual Result: The transfer was completed successfully and appeared in transaction history.

Status: Open

Evidence:

Testing evidence has been included in the GitHub repository screenshots section.

Evidence includes:

- Authentication validation
- Dashboard verification
- Successful transfer execution
- Transaction history validation
- Profile verification
- Defect screen shots

Conclusion: The DemoBank application successfully passed the majority of functional validation scenarios, Authentication, Accocunts, transaction history and profile functionality behaved as expected.

Two defects were identified within transfer validation controls and transaction integrity.
